

The first time you download an eBook you will need to download the free Adobe Digital Editions* software and activate your free Adobe ID account.

- Go to the Deerfield Public Library website. <http://www.deerfieldlibrary.org>
- On the bottom right hand side of the page, click on the link to **My Media Mall**.
- On the bottom left hand side of the page, look for the “**Digital Software**” link and click on the link for **Adobe Digital Editions**.
- Click on the “**Get Adobe Digital Editions**” box to download the free software.
- Follow the instructions to install the free **Adobe Digital Editions** software and get an Adobe ID.
- Connect your Nook to your computer. You should be asked to sync your Nook device to your Adobe ID. You should only have to do this the first time you set this up.

After you’ve installed the software on your computer you can download eBooks and transfer them to your Nook.

- Go to the Deerfield Public Library website <http://www.deerfieldlibrary.org> and click on the MyMediaMall link.
- Click on the **Sign In** link on the upper right hand side of the page.
- Sign in by selecting “**Deerfield Public Library**” and entering your library card number.
- Search for books through the search box on the upper left, or on the bottom left hand side of the page locate the “**Collections**” heading and click on the “**View all Adobe EPUB eBooks**” link.
- Select a title from the list of EPUB eBooks titles.*
- If it is available press on the “**Add to Cart**” link. Otherwise, you can “**Place a Hold**”.
- After selecting an available title, press on the “**Proceed to Checkout**” link.
- Press on the “**Confirm Check Out**” box.
- Press on the “**Download**” box.
- The book will now automatically download into the Adobe Digital Editions software. Once the book is downloaded press on the picture of the book to begin to read it.

To transfer a book to your Nook.

- Connect the Nook to your computer using the Nooks USB cable.
- Make sure you are in the “Library” view of Adobe Digital Editions by clicking on the **book shelf icon** on the top left hand side. All your downloaded titles should be visible from My Media Mall.
- You should also see an icon for your Nook on the left side of the page. Click and drag on whatever title you wish to transfer to the Nook, drag the title on top of the Nook icon, and the book should transfer to your Nook.

* A good tip is to click on the “Advanced Search” link at the top of the page. In the format option, select “Adobe EPUB eBook”. In the “Subject” option you can choose a genre such as “Fiction, Mystery, or Politics” if you would like to narrow your search. You will see a box that you can check to “Only show titles with copies available”. Click on this box and only titles that are currently available to check out will be shown.

For additional help you can contact Barnes and Noble at **1-800-The-Book**.
